Info on travelling with florets for affini and other sophonts!

Hi there! If you're travelling together with a floret, that's such an exciting adventure! We hope you have a great trip and a good time at the destination! Especially if you're not an affini, it might be hard to figure out some of the trickier logistics! So please don't forget about following:

- Check the Overnet for details on where to find the Floret Friendly sections of transports, which are specially designed to give the cuties all the comfort and space they need. You will see a small icon in the form of a paw print to indicate which section provides this service. If the transport is affected by any incident, it will be marked with a triangular warning sign.
- Please reserve a place for yourself and then ask for a Cutie Complement. (Available for free, of course! Why would you ask?) After choosing the route and date, select Supercomfy or higher accommodation quality (or don't! because all our transports have been rated as supercomfy by all the florets we asked!) and enable the Cutie Complement. We will make sure you and your floret friend are assigned the best accommodations that our technology can provide.
- Your floret will travel in the cabin together to you, without any carrier (unless they like enclosed spaces!). Floret Friendly cabins are available in the front and back sections of the transport (because your floret friend deserves the best view!).
- Please download, print, fill in, sign, replicate and hand in a copy at the docking station's service center, give a copy to the floret's owner, and keep a few copies that you can file later for fun! Make sure the service center receives their copy before departure. (You can do it later but make sure to apologise!)
- Make sure to carry all the necessary documentation with you: Floret Health Booklet, signed and stamped by a veterinarian, the Floret Away From Their Owner Declaration, signed by the owner, and at least one form 124-853-D ("Declaration by a floret who misses their owner so much") for each day of your trip. (Bring waterproof ink so it doesn't get too messed up by their tears of loneliness!)
- We will give you a travel kit consisting of a comfy pet bed and blanket for the trip. Sweet dreams, cute floret!
- We advise you to bring enough fidget toys and plushies for the floret. This will make sure that they enjoy the trip even more!
- The floret must remain muzzled at the docking station and during embarkation and disembarkation. During the trip, you can unmuzzle the floret. Recall: biting sophonts happens consensually and risk-aware!
- At all times, the floret needs to be leashed with a line of at most 1,5 metres. They cannot move around the transport unaccompanied by you.
- Don't forget to give the floret walkies before and during the trip!
- Remember that the floret's owner is charging you with their well-being of their pet and the cleanliness and comfort of their environment, and that you are responsible for ensuring other travellers can travel at their own desired comfort levels.
